

A different kind of "Green Piece"

We all care about the environment.
And most people are taking steps to reduce, reuse
and recycle. But can we do more? Of course.

The Press Democrat is exploring ways we can improve environmentally.
That is, how can we reduce our consumption of various energies in
order to become even more environmentally aware and sound?
More and more, consumers are electing to support companies who
embrace a "green" philosophy. This section allows you to promote
your stance on the environment.
